ABOUT US: The U.S. EWHA (also known as Minnesota PowerHockey League) is an all-volunteer Minnesota non-profit corporation. We are legally a 501 C 3 non-profit through a group ruling exemption via Disabled Sports USA, a national organization with chapters across the country. We are one of their MN chapters.

HOW IT BEGAN: Our organization was founded by its original players in 1993. As friends who met and played early forms of this sport at summer camp, they found a passion to play hockey and simply wished to find others who also played. The sport adapts amazingly well to power wheelchair users and can be an exciting fast paced sport with a few minor adaptations.

As a small grass roots organization the founders quickly began finding others around the world who either played some version of hockey or wanted to participate. However, the sport had NO major organization supporting the sport or believing it could work. Thus, the creation of the U.S. EWHA and the need to raise money for the sport.

Upon connecting with various small start-up teams/leagues around the world, the U.S. EWHA founders quickly attempted to connect people and help build the sport now known as PowerHockey.
